THE UPGRADE**Vinegar Salesman Says His
"Line" Is Selling Best
in Several YearsVINEGAR is a product which the
ordinary family can well dispense with when money is scarce and there
fore the demand for it can well be held a reliable indicator of prosperity.According to Earl W. Bentley, trav-
eling salesman for a cider and vinegar
manufacturers of Memphis, Tenn., the
outstanding market for vinegar is much
greater than ever before. Especially
does this hold true in that section of the
state immediately surrounding Ok-
lahoma City."My firm has received orders in the
last six months greater than the total
of any twelve-month period since 1911," he said. "Motley to a Tulsa repre-
sentative, 'People all over the state are
buying more from the retailers and
consequently wholesalers are increasing
their orders rapidly.' He far
the greatest increase however comes
from the central portion of the state
in the wheat and cotton belt, especially
around Oklahoma City.There is no doubt in my mind that
Oklahoma City is among the best
cities in the state. My orders are
increasing gratifyingly every day. But
I must add that the prosperity issue
will gather over the entire state.The oil towns are reviving with the
increase in the price of oil from 55
cents to one dollar a barrel while in
the wheat belt farmers have increased
one of the most valuable crops in recent
years. Then in the cotton country
the yield of the staple has been much greater than anticipated
and therefore agriculturalists feel
like spending and have more to spend
than if the crop had turned out as was
predicted in the beginning of the
season."ROYLING ALLEY—LEE-HUCK-
